Community

Enquiries management allows you to deal with them automatically

Contact management to build stronger relationships with productions

Cost effective and great value

WHO WE ARE

Openbrolly is a successful software services company established in 2000 and based in the UK.

We provide software products and cloud solution services to the Film and TV production industries in the UK and internationally.

MovieSite was developed working with film offices to improve their business processes to save time and money, as well as improving economic impact.

Our mission is to work with filmmakers and film offices around the world to make production happen.

We pride ourselves in:

- the integrity of our staff, their commitment to the highest level of product and service quality.
- our client community and the joint working relationships which drives our service improvement programme.

Our relationships are based on a win-win philosophy producing speedy and ongoing economic benefits for our clients and ourselves.

WHAT WE DO

We design, build and deliver cloud computing based services and solutions which comprises rented (licensed) software infrastructure, security and support. Simply this means:

- No infrastructure is required by our clients to use our services beyond access to the internet with a pc or mobile device.
- Services are available globally, anywhere, anytime 24/7 by anyone (you authorise)
- No IT knowledge, technicians or any modified IT infrastructure is required

Our services are modular and designed to fit the needs and budgets of all sizes of client.
