

**moviesite**

where production begins

**MovieSite**

Ultimate

This package is fantastic for established film office and busy filming departments within the local authority

Do you need to keep a record of contacts, partners and locations who are involved in a productions?

Do you need to manage enquiries? Attract productions to your area? And issue and approve permits?

Do you need excellent value for money? And gain inward investment?

Do you need to a powerful relationship management ability for your work with the film and TV industry?

Do you need an industry standard self-service system to allow the industry look for crew and locations?

Do you need to capture production spend and activity easily so you can report to stakeholders?

If so, then **MovieSite Ultimate** is right for you

This package provides you with self service location and crew registration, image uploads, real time presentation tools and interactive web brochures, with 100gb of storage space meaning you can store hundreds of locations.

The built-in contact database provides you with the ability to store relevant contact details and easily and efficiently send correspondence to enquiries, locations, crew and permits.

The permit elements allows you to generate inward investment by issuing and approving permits. It tracks all communication to departments and external partners. It even allows you to issue invoices and receive payments.

The production tracking elements automatically calculates the average spend per production, to allow you to report relevant economic spend to all stakeholders, plus you can group enquiries to one production to save you time.

# MovieSite Ultimate has everything a busy film office needs to ensure a first class service.

## WHO WE ARE

**Openbrolly** is a successful software services company established in 2000 and based in the UK.

We provide software products and cloud solution services to the Film and TV production industries in the UK and internationally.

**MovieSite** was developed working with film offices to improve their business processes to save time and money, as well as improving economic impact.

Our mission is to work with filmmakers and film offices around the world to make production happen.

We pride ourselves in:

- the integrity of our staff, their commitment to the highest level of product and service quality.
- our client community and the joint working relationships which drives our service improvement programme.

Our relationships are based on a win-win philosophy producing speedy and ongoing economic benefits for our clients and ourselves.

## WHAT WE DO

We design, build and deliver cloud computing based services and solutions which comprises rented (licensed) software infrastructure, security and support. Simply this means:

- No infrastructure is required by our clients to use our services beyond access to the internet with a pc or mobile device.
- Services are available globally, anywhere, anytime 24/7 by anyone (you authorise)
- No IT knowledge, technicians or any modified IT infrastructure is required

Our services are modular and designed to fit the needs and budgets of all sizes of client.
